

## Hand water nozzle

Corrosion resistant bronze construction.

**Ideal for marine, offshore, industrial or other corrosive environment**

Bronze construction

- Constant single flow
  - Fog and straight streams
  - Wide fog patterns adds personal protection
  - Multiple pattern detents
  - Performs at pressures as low as 50 PSI (3.5 bar)
  - Reinforced pistol grip
  - 100 PSI (7 bar) standard operating pressure
  - Up to 580 PSI (40 bar)
  - 60, 95 or 125 GPM (230, 360, 475 or 230 LPM)
  - 1.5" Inlet
- weight : 7.7 lbs

Reference : 911400

Indicate desired flow
